American System of Judging

Adult Agriculture

1. The quality desired in agricultural & horticultural products is the quality that brings the best financial return in the commercial market. Such exhibits must be at least equal in maturity to that ripeness required by Section 42513 of the California Agricultural Code in order to be considered for premium awards.
2. Mature means having reached that stage of ripeness which will ensure palatability, after the removal of the product from the tree, vine, or plant.
3. Over ripe means having an advanced state of maturity which causes the product to be undesirable for human consumption in a fresh state.
4. Exhibitors must furnish their own containers for exhibits.
5. Topped vegetables should have tops cut 1 to 2 inches. Bunched vegetables should have sufficient tops to be tied together.
6. Exhibitors must make arrangements to replace all fruit & vegetables which deteriorate during the duration of the Fair.

Unless otherwise stated, the type of vegetable desired for exhibit will be uniform commercial grade rather than overgrown. Monstrosities will not be considered for premium awards.
